

## **Summer Academy Programs:**

- [\*\*Architecture & The Built Environment Academy\*\*](#) - The College of Architecture & the Built Environment is offering a virtual summer design course for students to explore the architectural design and construction fields including architecture, interior design, landscape architecture, historic preservation and construction management.
- [\*\*Kanbar College of Design, Engineering & Commerce\*\*](#) - Students who are interested in learning about design or business can explore three summer programs offered by the Kanbar College of Design, Engineering & Commerce. These on-campus programs will focus on textile design, fashion design and fashion merchandising and management.
- [\*\*SummerScience@Jefferson\*\*](#) - Students seeking a future in science can explore this 4-week virtual program offered by the College of Life Sciences. Students will learn from our science faculty and engage in research projects conducted in an online environment.
- [\*\*Summer Training & Enrichment Program for Underrepresented Persons \(STEP-UP\)\*\*](#) - Students interested in exercise science, physical therapy, occupational therapy, athletic training and speech-language pathology and who are traditionally underrepresented in these disciplines are invited to join the College of Rehabilitation Sciences for a two day program.
