SCOIR

What is Scoir?

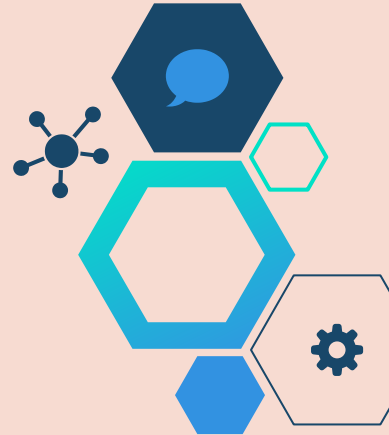

Scoir is the college research and application tracking program students will use as they begin to formulate post-secondary plans.

Scoir allows students to:

- Create a resume
- Take a career profile Assessment
- Research Individual Colleges

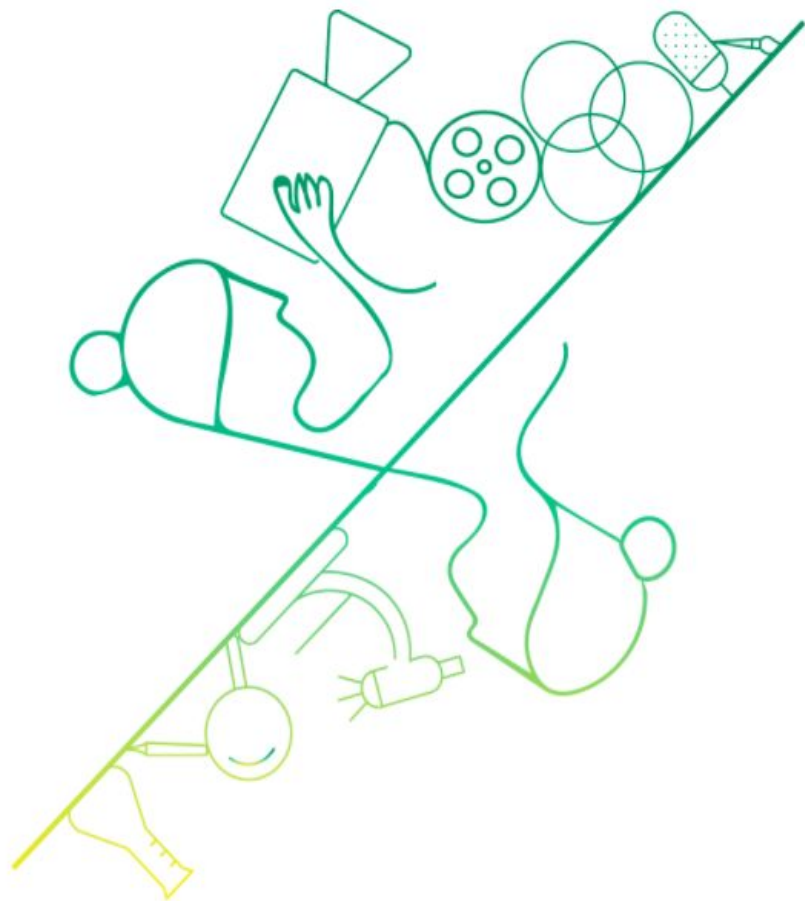

As Seniors....

- Let their counselor know what schools they are applying to
- See the application outcome data from students at their school
- Request teacher recommendations
- Request transcripts and other college entrance documents

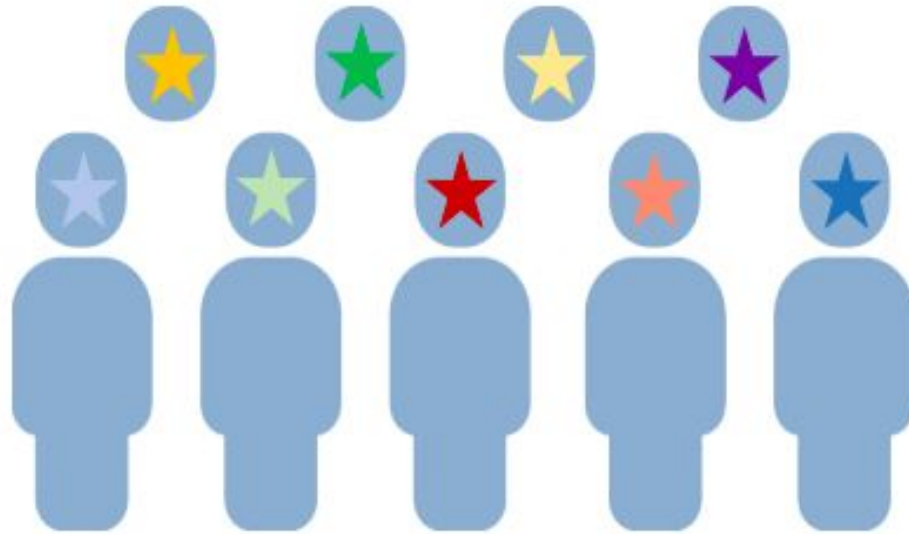

Every student has talent. Help them discover it.

"I have a lot of confidence from YouScience. I look at my future career and I can't wait to get out there in the field. A lot of people don't know their skills and what they want to do – but I do, because of YouScience." – Cedric, Marietta, GA

All Students Have Talent

Not Just Academic All Stars

Our Economy Needs Everyone

Test Optional

1\3
Require Test Scores

Test Optional Terminology

Test-Optional

Accepts but does not require test scores from applicants.

Test Flexible

Generally test-optional school that places limitations on applying without test scores (for instance, you might need to have a certain GPA in order to apply without a test score);

Test-Blind

Will not consider test scores from any student, even those who might wish to submit them.
